Driving Licence (B)

\$ cat profile.md # Profile

As comfortable behind a keyboard as in conversation with others, my background has led me to work across many domains and tools, which I draw on today both professionally and in my personal life. In every role, I've sought to bring concrete improvements — taking initiative and questioning the status quo rather than settling for the easy path — which has earned me regular internal promotions. Self-taught, I've also run several personal projects, always designed to improve the daily life of my thousands of users, who are and will always be my priority.

\$ ls experience/ # Work experience

### DevOps & Systems Engineer

Evernex — Compans & La Défense — 04/2023 — Present

- > End-to-end technical project management (requirements → specifications → development → deployment → follow-up); development of internal tools and automations.
  - > Example projects: design of the Evernex public API, setup of the internal digital infrastructure (AWS EC2 instance, on-premise servers).
- > Leading the development side of the digital team (process, tooling, security, best practices); managing a small team of in-house developers and external contractors.
- > Administration of cloud/SaaS systems: AWS, Anypoint Platform, Salesforce, SAP ByDesign, GitHub, Microsoft Entra, Atlassian, Okta, ...

### Systems Administrator

Evernex — Aulnay-sous-Bois — 09/2020 — 03/2023

- > Administration of a heterogeneous systems estate (SAP ByDesign, Okta, Jira) and management of internal projects alongside administration duties; user support focused on lasting fixes rather than quick patches.

### IT Technician

Evernex — Aulnay-sous-Bois — 09/2016 — 09/2020

- > Refurbishment and configuration of multi-vendor hardware (EMC, Cisco, Brocade, Sun/Oracle, Dell, ...) for client production deployment; development of an internal hard-drive testing tool.

### Food & Beverage Cast Member

Disneyland Paris — 02/2008 — 08/2016

- > Started as a student seasonal hire, then progressed into supervisory roles (team leader, stock supervisor); international clientele, multiple languages used daily; eight years in a demanding environment (strict hygiene, safety and cash-handling standards). Trained colleagues in teamwork, team management and social outreach.

\$ ls projects/ # Projects

#### DeepRoll [deeproll.org](https://deeproll.org)

Customizable, animated prize-draw platform. TypeScript.

#### xRate [Microsoft Store](https://microsoft.com/store)

Real-time currency conversion, with a PowerToys Command Palette extension. C#, open source.

#### Le Carré des Princes [Google Play](https://play.google.com/store/apps/details?id=com.lecarredesprinces)

Android app for following PSG. Flutter.

#### Discord [Community](https://discord.com)

Bot development and administration of a server with several hundred members.

#### Private creations [Personal](#)

Custom digital experiences for private occasions (birthdays, game nights, ...): websites, a Roblox game, ...
